FROM THE PRESIDENT

It is with great sadness that I report Tony Teideman, our Secretary and Editor for many years, died on 25 June 2011. His widow, Maureen, confirmed that he had had a long illness and spent the last few weeks in a Nursing Home, gradually deteriorating. The earliest "Bicycle Stamps" I can trace is the Spring 1995 issue No.18A. Tony was Editor and Secretary then and I believe he had occupied both positions for possibly 5 years earlier. It was remarkable that he provided such a service to members despite living in Australia, far away from the majority of our members. We owe a great debt to Tony.

My apologies for the long gap since BS 72 dated August 2010 but despatched in February 2011. I have a number of philatelic offices and I have not had time to put together an issue earlier. Thomas Matthies very kindly provided me with 38 pages of New Issues in January 2012. This was the spur to add some essential information, such as the Club Roster. Please check your own entry and advise me of any corrections required. The Financial Report shows a payment to Maureen Teideman of money due to Tony, which he had been too ill to claim himself. Many of you will have a request for renewal of your subscription to Bicycle Stamps. I have tried to make allowance for the 12 months without any issues but this should be a bumper issue. I propose to issue just 2 issues per year in future; the next should be in September 2012. Prompt payment would be appreciated and if you decide to cease membership please let me know soon.

Hr Slokvik's Bicycle Tyre by Peter Ibbotson ("Stamp Collecting" Oct. 23 1975)

If you had the misfortune to live in Nazi-occupied Norway you would have had to make special application for certain goods and services, which were in short supply, e.g. Workmen's clothing, cycle tyres and tubes, footwear and shoe repairs. Applications for these goods or services had to be made on special postal stationery cards whose use in some cases lasted for years after the occupation.

These cards were offset from cylinders with 18 or 36 cards, size 250 x 205mm, 192 x 122 mm, or 128 x 128 mm. The text was usually black, printed in the same process as the coloured imprinted stamp, though the workmen's clothing card was printed in green, like its stamp. The quality of the card varied, deteriorating as the war years passed. The imprinted stamp was the lion-type definitive, usually with two values expressed (15 + 10, 25+ 15, etc.), one value representing postage and the other a departmental rationing fee. All were produced between 1940 and 1951 by Emil Moestue A/S printers of all Norwegian postal stationery since 1937.

The scarcity of types of rationed goods application cards depends largely on the quantities issued. Thus, over 20 million footwear application cards were printed between May 1941 and November 1945 and, apart from certain printings recognised by specialists, are not uncommon. On the other hand, **the total printings of the bicycle and cycle tyres application cards were only 490,000 and 583,000 respectively**, so that examples of these are far less commonly met with, especially the March 1943 printing of the tyres card.

The front of the cards addressed, *Til forsyningsnemnda* (Supplies Officer) set out the type of goods applied for and provided space for the name and address of the applicant along with a declaration of correctness of the information given. This declaration had to be witnessed in the presence of the APPLICANT. The back of the card provided space for the application to be detailed.

The card illustrated shows that Jarjei (?Tarjei) Slovik of Nissedal was applying for a new tyre (sykelgummi) and tube for his bicycle. The back of the card (not illustrated) shows that he wanted a new tyre and inner tube, had no spare tyres or tubes in reserve, and had sold his only other serviceable bicycle in October 1st, 1940. No one else in his family owned a cycle. Hr Slovik evidently had no fixed place of work, for he stated that he travelled from 1 km. to 24km. daily to work. He declared* that within the two years preceding his application he had tried to buy a new cycle and tyre. Evidently his attempt had been in vain,

Below the applicant's particulars there is a sub-section for completion by an authorised dealer in cycles and tyres. A further sub-section records the fate of the application. The card shows that Hr. Slovik received permission to be supplied with one tyre and one inner tube (permission hand-stamped by the Supplies Officer at Nissedal), but not until March 15, 1945 – four and a half months after making application! How dreadful it must have been waiting for such a simple seeming thing as a tube and cover ..especially considering cycling up to 24km on a worn tyre or even, perhaps on the rim!

Thanks are due to Miss Susan Worsley for translating the Norwegian for me. More detailed information about these rationed goods application cards will be found in the Oslo Philatelic Club's *Katalog over Norges heelpost 1872-1972*; this also includes valuations which should, however, be interpreted as indications of relative scarcity rather than firm prices.

Unfortunately the illustration used in the article did not reproduce well. The illustration below is of a blank ration card used to apply for a new bicycle. Ed.

Be aware: There are very doubtful issues with the name of Djibouti belonging to London 2012 and illegal issues with the name of Haiti belonging to Beijing 2008 on the market. Also issues from Belize belonging to 30TH Anniv. of Olympic Games in Moscow or anything from Equatorial Guinea mainly sold on Delcampe or Ebay. More in the next BS.

Personalized issues from postal authorities are not included (e.g. France, Australia, Great Britain etc.). If we can get more information about them we present them in one of the next BS.

¹⁾ Quote from Marlen Stamp & Coins Ltd.: "NOTE: THESE STAMP-LIKE LABELS WILL BE LISTED BY THE UPU AS ILLEGAL AND UNAUTHORIZED ISSUES. WE OFFER THEM BECAUSE THEY ARE ON THE MARKET, AND WE RECOMMEND THAT YOU BUY THEM ONLY IF YOU LIKE THEM."

The price at Marlen is about \$13 for the perforate and \$39.95 (!!!!) for the imperforated coloured paper in case of Afghanistan & Congo ... if you like them ...

²⁾ Legality very doubtful. See Entries at WNS (<http://www.wnsstamps.ch/en/participating>). (Same for every stamp of Benin in the last years). Michel only notes stamps with overprint for postal usage in the last years.

³⁾ That it is in different designs on every FDC of the Netherlands in 2010 cause of the "Tour de France"

⁴⁾ Up to now the Benin and Eq. Guinea stamps in no list seen (Batho, Malone, Muhsil, Hillarides, Waltl) so maybe unknown to the community.

⁵⁾ IGPC is the issuing agency for about 80 nations incl. this. (<http://www.igpc.com>)

⁶⁾ Togo seems to have changed the agency contract at the end of 2010. The IGPC which has listed Togo as client nation does not have these issues in their database. Last entry for Togo is in their "12/10 Web Listing". Last Michel entry is from July 2010. But these issues here are listed in Yvert & Tellier.

1. Undated issues will remain on this list or the "Issue Information Update" list, until such time as a date of issue is established.
2. Issues marked * have been corrected or have additional information, the additional or corrected information is underlined.
3. Issues marked ☐ are deemed to be fake, ie not stamps only Cinderellas or illegals, therefore they will not have a date of issue (Cinderellas are fantasy products. Illegals are unauthorized stamps with the name of real existing postal authorities produced in fraudulent intent)
4. Additions to the list are indicated by a heavy solid left-hand border to the country's name box.
5. Issues that appear on this list for over a year are moved to the "Issue Information Update" list.
6. Content of set: "→" = published in ... (ex. 2→2Shl(10) = 2 stamps published in 2 sheetlets of 10 each)
SeT = Se Tenant, S? = Strip of ? stamps, Sh = Sheet, Pn = Pane, C = Coil, Shl = Sheetlet, MS = Miniature Sheet, CPn = Composite Pane, CShl = Composite Sheetlet, Bk = Booklet, BkP = Booklet Pane, PBk = Prestige Booklet, FDC = First Day Cover, MC = Maximum Card
Definitions according to MICHEL and "PHILATELIC TERMS ILLUSTRATED", James MacKay, Stanley Gibbons 2003 (!) partly contrary to LINN'S)
7. The last column shows where the stamp is illustrated, with BS number, followed by page number (NIA = No image available).
8. POSTAL CARDS are those cards that include the stamp or prepaid indicia printed on it. POST CARDS need the addition of a stamp for mailing. Only those Post Cards issued by a country's post office are included in this list.
9. If any catalogue entry (Scott, Stanley Gibbons, Michel or Yvert & Tellier) is known it is indicated with "§". If a WNS no. is known it is stated (e.g. "WNS: LR024.09"). The WNS no. documents, that it is definitely a legal issue.
For WADP Numbering System (WNS) see <http://www.wnsstamps.ch/en/about>

The "New Issue Update" exists as PDF file of 4,5 GB. If you want this per e-mail or if you have questions, new information or scanned images of stamps, please write to: thomas.matthies_bo@t-online.de

Many thanks to Piet Hein Hilarides for information from his catalogue updates.

THANKS TONY !!!

DENMARK 4.8.10 POST DANMARK RUNDT 2010 - THEMES FROM DANMARK RUNDT 2009

"These new stamps or labels, although not ATM's have the same format and size as the ATM's currently in use in Denmark since 2006. But these are printed in sheets of 10 and only available as such.

Although these are limited in numbers to 15,000 (this information is not listed in the journal, only in a press release on their homepage) they are available at all post offices, as are all new Danish stamps." (Info from user sneak on www.stampboards.com).

These issues are not numbered by Danish post and not included in the year set. Post Danmark is a sponsor of the event: hence the name Post Danmark Rundt.
